Pool + water garden

An infinity pool integrated into a garden featuring a fountain.

The structure, built using the Drytech Pool System, is clad in stone.

Hanging pool, Lugano

The rooftop infinity pool, crafted from exposed concrete and featuring a glass wall overlooking Lake Lugano, perfectly embodies Vasca Drytech's expertise, enhancing the clean lines of architect Quaglia's design.

The Drycoat membrane, which waterproofs the accessible surfaces, seamlessly integrates with the structure, like a second skin.
